

Samples of our Work

SURFACING PROJECTS

Highway 2—2023

Implementation of a pavement preservation overlay to restore ride quality between Olds and the Town of Bowden. Also included was overhead sign removal and rehabilitation of the interchange ramp and loop, accessing The Town of Bowden. Eagle worked with Aecon Transportation and Alberta Transportation in this safe and effective construction operation, which ran on a 24hrs/7days schedule.

Highway 2A—2022

Eagle worked with Aecon Transportation and Alberta Transportation to resurface and widen highway in the DeWinton Area, including the intersection with Hwy 552. Lighting and intersection improvements were included in the scope of work. A 24 hour operations schedule was implemented to accommodate overnight paving on this busy corridor.

Highway 36— 2023

Placement of over 86,500 tonnes of asphalt to rehabilitate highway south of Taber. Eagle's experienced team worked with Aecon Transportation and Alberta Transportation to successfully deliver on this large paving job with intersection radius improvements.
